Seasonal Fun For Students and Staff

Having returned from the summer break students were once again full of energy and ready to embark on the numerous challenges available.

A number of new students have joined us this term and we are incredibly pleased with the way they have been welcomed and at how quickly they have settled in.

More new students are joining in January and we look forward

to them being welcomed with the same positive approach.

At Key Stage 3 both classes have been working extremely well in class and also undertaken some successful educational visits throughout East Kent. They learn a huge amount through these outdoor learning experiences. They are currently working towards a John Muir Award with our colleagues from Ripple-down outdoor learning

centre. They have been caring for local woodland, learning about the wildlife present and how to make tea on an open fire ! Well done to all involved, staff have been impressed by both the behavior and learning.

Key stage 4 students have been continuing to attend work experience and college placements alongside preparing for examinations.

A major new initiative

is our involvement with The Marina Café in Dover. Lots of students have been working in the café alongside staff and reports from customers have all been very positive.

Please come along for a coffee whenever you have the opportunity.

If you have any ideas or suggestions, please contact the school on 01304 381906 or e.mail us at locringwood@live.co.uk

Have a Safe and Happy Christmas

Please encourage students to leave their **named** PE kit at school so that it is always available. We will ensure it is sent home when necessary or washed here at school.

INTERNET SAFETY

Please contact the school if you have any concerns, particularly with regard to parental controls on new technology received at Christmas.

Advice . Help . Report

Please pass on details of our exciting new venture,

**The Marina Cafe
in Dover.**

Details are on the
website.
